

Saxomer[®] Touch

Saxomer Touch is a high-quality TPE compound, specifically for demanding tactile applications. Ideal for two-component (2K) applications such as grips, buttons, or switches, Saxomer Touch offers a wide range of custom colours and Shore hardness options. It provides electrical and household appliances with a pleasantly soft and sophisticated surface. Thanks to its easy processing and versatile customisation options, Saxomer Touch allows the design of optimised, velvety, or non-slip surfaces.

Hardness: 30A - 65D | Density: 0,89 - 1,50

Advantages of Saxomer Touch

- Excellent haptics
- Easy demolding
- 2K optimized
- Wide color spectrum
- Food contact compliant
- Outstanding flow properties
